### (54) WEAR

#### (57) Abstract:

PROBLEM TO BE SOLVED: To provide a wear directly contributing to increase performance of an athlete.

SOLUTION: The wear comprising at least one elastic element and for wearing on a part of the body, especially, for a sport pants, is provided, wherein the elastic element is set at a first part and basically no elastic element is set at a second part of the body opposite to the first part. The wear stores energy when stretched

by a first action of a part of the body in a first direction and releases the energy in a second action of the part of the body in the opposite direction so as to assist the second action of the part of the body.
